Level 1

English Central makes improving one's English fun and effective by turning popular web videos into powerful language learning experiences. EnglishCentral users not only watch videos, they speak them and receive instant, personalized pronunciation feedback via our cloud-based system.

Students WATCH authentic videos then SPEAK the videos. They are motivated through authentic content and a point based system. Students LEARN by taking video quizzes of the vocabulary of each video. We also have a cutting edge phonetic speech recognition system which will give students valuable feedback about their speech.

Teachers can track and assess their students using EnglishCentral. Sign up students. Make your own school, classrooms, groups. Assign video tasks and build curriculum for your students. Track your student's progress and print reports. Discuss and get tips on our Teacher's Forum.

Using This Book

This book is meant to compliment the low level video content of EnglishCentral. The book can be used in class and students can then “speak” the videos and do the quizzes on EnglishCentral. It is built in recycling of the curriculum.

In class, 3 steps are recommended.

Watch

Ask a few pre-viewing questions to students. Then WATCH the video together. Repeat as necessary. Students can follow with the script if needed. The script can also be used as a listening cloze.

Speak

Model the dialogue with students, using a high level student. In pairs/groups, students make their own dialogue – personalizing it and completing it with their own information. Students can then present the dialogue for the class

Learn

Students complete a simple “fill in the blanks” activity to consolidate their learning of the vocabulary and language forms.

That’s it! Students can then in a language lab or at home, use EnglishCentral and “SPEAK” the videos + do the video quizzes for each video. Teachers can track their progress.

We hope you enjoy using EnglishCentral in this “blended” fashion.

Watch interesting,
authentic videos.

Learn the vocabulary
that matters to you.

Speak and get instant
pronunciation feedback.
