About this ebook

This book represents thousands of hours of in class trial and out of class searching. Also, resource and curriculum design. I regret none of it!

Why? Well, I firmly believe that short videos are perfect vehicles to contextualize language and engage/hook learners. Try them and you’ll see what I mean.

All the videos have resources that you can instantly download, print and use to teach with the video. You will need a membership on [EFL Classroom 2.0](#) but it is totally free to register and then download 1,000s of resources.

Also, you will be able to play and download all videos without ads and offline (no need for wifi access. This I believe will help so many teachers. Simply click the play button for each video. Many of the videos can also be found on our [Top 100 Youtube Videos playlist](#) if you prefer to view them there.

The ranking is by no means "scientific". It's my own assessment based on many factors ranging from "fun" and "interest" to length, language, contextuality and affordances.

Enjoy teaching with this complete set of teaching materials.

Thanks in advance, enjoy the teaching and learning,

David Deubelbeiss
